

## ROOFING — STORM & INSURANCE

# ROOFING RESTORATION, DOCUMENTED RIDGE TO GUTTER.

## DOCUMENTED. CERTIFIED. RESTORED.

After a storm, the damage that matters most is often the damage you can't see from the ground. We inspect and **document the full condition of your roof** — then **build a carrier-ready scope** so **nothing gets left off the claim**.

### 1 An honest inspection

We document the full roof condition with photos and give you the truth — not a hard sell. If it doesn't need replacing, we'll tell you.

### 2 A carrier-ready scope

We write Xactimate scope where a carrier needs it and document concealed or omitted damage for a formal supplement under our contract.

### 3 You keep control of the claim

**No Assignment of Benefits — ever.** A standard Washington contract, permits pulled, and inspections coordinated to completion.

#### 1 ROOF INSPECTION

We assess and photograph the full condition, top to eave.

#### 2 DOCUMENT & SCOPE

Damage documented; an independent, written scope built.

#### 3 CARRIER RECONCILIATION

We reconcile our scope line-by-line with the estimate.

#### 4 RE-ROOF & INSPECT

Installed to code and craft, final inspection coordinated.

**One clear lane.** We're your roofing contractor, not a public adjuster — if a claim needs advocacy of its own, we'll flag it early and connect you with a licensed public adjuster.

Xactimate-licensed scope · IICRC S500 / S520 / S540 · WA GC PROLISN776L6 · 4.98★ across 42 verified Google reviews · In business since 2020.
